If we built the portal into MyColorado app, how will people without a state ID access it, but the presentation addressed those issues. This is all fantastic! Sharing a small amount of data to a provider is the nuance, how do we build a system that creates this control. One thing mentioned in the recommendations piece on the paper consent is “no jargon”. People don’t know what HIE means. • Cassi Niedziela- will take feedback and add it into the granularity of the slides. 		
<p>Consent Management Working Group Charter</p> <ul style="list-style-type: none"> • Craig Kim - what are we trying to accomplish within the Consent Management Working Group is the goal of this charter. What are we trying to achieve? All feedback would be requested within 2 weeks (no later than 3/3). 	<p>Craig Kim & Melissa Hensley</p>	<p>10 mins</p>

<ul style="list-style-type: none">Consent Management Proof of Concept - OIT is currently gathering our requirements and will hopefully be completed in the next couple of weeksWes Williams - with regards to the consent forms, at a high level - representatives from the mental health centers were on board with the consent paper form, some questions were raised that I will bring together to send out to the group. The nature of the questions were related to how it will work, how it will work with the EHRs and HIEs, etc...		
Next Steps <ul style="list-style-type: none">Consent Management Working Group Charter - feedback will be provided by all members of the board no later than 3/3.Consent Opt In/Out Forms - Wes Williams to provide a consolidated note with feedback to the group to work through.Some feedback will need to be immediately incorporated while other feedback can waitGabby believes it could be helpful for the charter itself to have more clear expectations for what the workers should be doing (Craig: Goals and deliverables section on charter document)	Craig Kim & Melissa Hensley	15 mins
